Dennis Kemnade

Frontend Developer

About Me

I'm a frontend developer with experience in building web apps with JavaScript & Angular. You can find my projects, which include responsive websites and business apps, in my public portfolio. I started the IT journey as a part of the digitization tasks in my past employment and then decided to retain and create projects. I am looking forward to building on my experience and starting my career in IT in a junior developer position.

Main Stack:

- JavaScript
- TypeScript, Angular
- HTML, CSS, Bootstrap

Side Stack:

- Git, APIs (REST), Google Firebase

Skills

- **Building Applications with JavaScript & Angular:** I built landing-pages and several web apps as well as OOP-based Jump-and-Run-Games with the respective technologies.
- **Working in a Software-Team:** During learning coding, I did several group projects where I learnt how to develop a software project in a team.
- **High sense of responsibility:** I am used to taking responsibility and working diligently as I always did in my job as an Specialist in refrigeration technology.

Professional Experience

Hummel Systemlösungen GmbH & Co KG /
